RE: MB Docket No. 14-57

Dear Chairman and Commissioners:

The Mexican American Opportunity Foundation (MAOF) supports the proposed transaction between Time Warner Cable and Comcast.

Established in 1963, MAOF is a non-profit, community-based organization that works to serve disadvantaged individuals and families in the Los Angeles area. Since then, we have become the largest Latino-oriented, family services organization in the country by providing high quality social services and programs to those communities where the need is the greatest. MAOF strives to provide for the socio-economic betterment of the greater Latino community in California, while also preserving the pride, values, and heritage of the Mexican American culture, through programs in early childhood education and family services, job training, and senior lifestyle development.

We have worked with government agencies, public and private foundations, and Corporate America to ensure that we are providing the best services in the most effective way possible. MAOF recognizes and values strong community partnerships and our Board of Directors works to ensure that we continue our partnerships with both civic and corporate leaders.

MAOF believes that education is a tool for upward mobility as well as greater equality and is always looking for ways to improve the programs we offer to the children in our organization. Our relationship with Time Warner Cable has allowed us to explore options to expand our youth

curriculum to include STEM-related programs and technology. We see the proposed transaction with Comcast not as an end to this work, but as an opportunity to further expand our youth curriculum.

Comcast's emphasis on technology literacy and skill enhancement would be invaluable to us in this regard. We envision a strong partnership with Comcast centered around its Internet Essentials program, through which we could expand our digital literacy training curriculum. Partnering with Comcast on Internet Essentials will enable us both to reach the most at risk children and provide targeted help to those in need.

We look forward to working with Comcast and ensuring that the children we work with benefit from the programs they will bring to our market. For this reason, we urge you to approve the transaction.

Sincerely,

Martin Castro
President & CEO
